

SHINY RIDES CAR DETAILING

DEEP EXTERIOR DETAIL

"make it clean again"

Do I need a Deep Exterior Detail?

Has it been a while since your car had a good clean?

Dirt and contaminants such as brake dust, road grime, bird poo, and tree sap and even rain can damage your vehicle's clear coat over time. Regular deep cleaning of your exterior will help maintain its glossy finish and preserve the paint so it continues to look good for years to come.

Our Deep Exterior Detail will renew your ride, removing the grime & contaminants and returning its shine. Every surface is taken care of including wheels, windows and door jambs so it looks and feels fresh again.

We use top-of-the-line products and safe, meticulous techniques to ensure your car receives a flawless, deep clean.

Whats Involved?

1. **Exterior Wash:** Pre treatment of snow foam, high pressure rinse, followed by a two-bucket wash with microfiber mitt for a scratch-free finish.
2. **Hand Drying:** Carefully hand-dried with a premium towel to prevent water spots.
3. **Tyre and Wheel Care:** Scrubbed tyre walls, cleaned rims, and tyres dressed.
4. **Bug Removal:** Thorough cleaning of the bumper and grille.
5. **Details:** Cleaned and dried door jambs, windows, and mirrors for a complete finish.

Our Deep Exterior Detail can usually be completed within 1.5 hours. The condition of the car will determine the final cost.

Want to keep your vehicle in top condition after your Deep Exterior Detail? Talk to us about a Maintenance Clean plan!
