

SHINY RIDES CAR DETAILING

MAINTENANCE CLEAN

"keep it clean"

What is a Maintenance Clean?

So you have just had a **Deep Detail** service and are loving the feel of a fresh clean car?

Our **Maintenance Clean** is designed to:

- Keep your detail looking fresh
- Save time with regular, low-fuss cleans
- Protect your paint, trims & interior

Its Ideal for those who want us to take care of the maintenance of their vehicle.

We use all the same products and clean all the same surfaces, however the time it takes is shortened as there is less dirt and stains to tackle. Getting your car cleaned regularly will not only save you time and money but will limit the possibility of permanent damage to interior fabrics, surfaces, and exterior paint work.

The time between cleans will depend on how you use your car, however we recommend every 2 months for most people.

We can tailor a plan to suit and even send you reminders so you don't have to keep track.
